1H FY2019 Income Statement (Consolidated)

(millions of yen)

	1H FY2019	% of total	1H FY2018	% of total	YoY comparison
Net Sales	6,272	100.0%	6,878	100.0%	91.2%
Operating income	421	6.7%	430	6.3%	97.7%
Ordinary income	461	7.4%	449	6.5%	102.7%
Net income attributable to parent company shareholders	299	4.8%	312	4.5%	95.8%

□ The pachinko parlor industry continues to be in an adverse situation in terms of earnings as a result of the decline in the frequency of utilization by users as well as a decline in investment amounts. Given the recent measures to prevent dependence and the trend of tightening industry restrictions aimed at curbing gambling-related aspects, motivation for the parlors to invest in new parlor openings and proactive purchase of new machines appears to be declining significantly compared with the past.

□ In the mainstay advertising business, the Group, with the aim of transforming its earnings structure, strived to boost revenue by expanding sales of Internet media. Further, in the advertising field other than pachinko parlors, in addition to the expansion of the printing business and strengthening of the contract-based design business, the Group has been working on boosting its earnings by entering newly into advertising for the fitness industry from the current fiscal year.

□ As a result, net sales for the first half of FY2019 totaled ¥6,272 million (down 8.8% year on year), operating income came to ¥421 million (down 2.3%), ordinary income rose to ¥461 million (up 2.7%) primarily due to ¥39 million in foreign exchange gain and net income attributable to parent company shareholders totaled ¥299 million (down 4.2%).

■ 1H FY2018

(millions of yen)

	Advertising	Real Estate	Other	Adjustment	Consolidated
Net sales	-610	15	-11	—	-606
Segment income	-7	18	-32	11	-9

- Consolidated net sales declined ¥606 million as the pachinko parlor advertisement business trended below the previous year's level.
- In the Other Business segment, segment loss came to ¥32 million primarily due to the impact of amortization burden of initial investment in the casino business.

1H FY2019 Segment Income (Advertising)

(millions of yen)

Advertising	1H FY2019	1H FY2018	YoY comparison
Net sales	6,193	6,803	91.0%
Operating expense	5,562	6,165	90.2%
Segment income	631	638	98.9%

External environment>

- ❑ In the pachinko parlor advertising market, pachinko parlor operators continued to cut back advertising spending due to worsening profitability.
- ❑ Advertising demand is significantly sluggish also due to decline in demand for advertisement of new machines given low frequency of replacement with new machines.

The Group's approach>

- ❑ Expanded sales of internet media primarily of its own "Pachi 7" media and "Pachi Ad" DSP advertising.
- ❑ Expanded the printing business for other industries, strengthened the contract-based design business.
- ❑ Entered the advertising field in the fitness industry, and started activities to acquire new customers.

Result>

- ❑ The efforts of the Group had a certain level of impact, with Internet sales of the first half in particular registering a 72.8% increase year on year. As a result of these initiatives, the segment posted segment income of ¥631 million, down 1.1% year on year as the sales margin rose on the Internet-related services operated by the Group despite net sales declining 9.0% year on year to ¥6,193 million due to the drastic fall in demand for print advertisement.

Quarterly Sales Trends (Advertising)

(millions of yen)

	1Q	2Q	3Q	4Q	Full year
FY2019	3,053	3,140			6,193
FY2018	3,482	3,321	3,327	2,982	13,112
FY2017	3,994	3,949	4,241	3,459	15,643

❑ Net sales of the Advertising Business declined ¥181 million in 2Q compared with the same period a year earlier.

❑ The decline was due to a decrease in advertising demand resulting from falling frequency of replacement with new machines, cut-back of advertising budgets and extreme decline in large-scale advertising demand for new parlor openings prior to the Bon holidays.

■ Newspaper flyers ■ Internet ■ Promotional goods ■ Advertising media ■ Creative ■ Other

□ Net sales of Internet advertising rose 72.8% year on year on the back of proactive efforts. At the same time, sales fell in other categories year on year as demand declined in print advertisement led by newspaper flyers.

□ Given the decline in advertising demand due to reduced advertising budgets and decline in frequency of new machine replacements, average sales per client declined ¥57,000 compared with the end of March 2018. In addition, the number of clients indicated here declined as the number of clients outside the scope of tabulation increased reflecting falling average sales per client.
