P14-19 Progress in Various Services
The pachinko parlor industry continues to be in an adverse situation in terms of earnings as a result of the decline in the frequency of utilization by users as well as a decline in investment amounts. Given the recent measures to prevent dependence and the trend of tightening industry restrictions aimed at curbing gambling-related aspects, motivation for the parlors to invest in new parlor openings and proactive purchase of new machines appears to be declining significantly compared with the past.

In the mainstay advertising business, the Group, with the aim of transforming its earnings structure, strived to boost revenue by expanding sales of Internet media. Further, in the advertising field other than pachinko parlors, in addition to the expansion of the printing business and strengthening of the contract-based design business, the Group has been working on boosting its earnings by entering newly into advertising for the fitness industry from the current fiscal year.

As a result, net sales for the first half of FY2019 totaled ¥6,272 million (down 8.8% year on year), operating income came to ¥421 million (down 2.3%), ordinary income rose to ¥461 million (up 2.7%) primarily due to ¥39 million in foreign exchange gain and net income attributable to parent company shareholders totaled ¥299 million (down 4.2%).

</tr>
</tbody>
</table>

- Consolidated net sales declined ¥606 million as the pachinko parlor advertisement business trended below the previous year’s level.
- In the Other Business segment, segment loss came to ¥32 million primarily due to the impact of amortization burden of initial investment in the casino business.
External environment>

- In the pachinko parlor advertising market, pachinko parlor operators continued to cut back advertising spending due to worsening profitability.
- Advertising demand is significantly sluggish also due to decline in demand for advertisement of new machines given low frequency of replacement with new machines.

The Group’s approach>

- Expanded sales of internet media primarily of its own “Pachi 7” media and “Pachi Ad” DSP advertising.
- Expanded the printing business for other industries, strengthened the contract-based design business.
- Entered the advertising field in the fitness industry, and started activities to acquire new customers.

Result>

- The efforts of the Group had a certain level of impact, with Internet sales of the first half in particular registering a 72.8% increase year on year. As a result of these initiatives, the segment posted segment income of ¥631 million, down 1.1% year on year as the sales margin rose on the Internet-related services operated by the Group despite net sales declining 9.0% year on year to ¥6,193 million due to the drastic fall in demand for print advertisement.
Net sales of the Advertising Business declined ¥181 million in 2Q compared with the same period a year earlier.

The decline was due to a decrease in advertising demand resulting from falling frequency of replacement with new machines, cut-back of advertising budgets and extreme decline in large-scale advertising demand for new parlor openings prior to the Bon holidays.

</tbody>
</table>

- Net sales of Internet advertising rose 72.8% year on year on the back of proactive efforts. At the same time, sales fell in other categories year on year as demand declined in print advertisement led by newspaper flyers.
Given the decline in advertising demand due to reduced advertising budgets and decline in frequency of new machine replacements, average sales per client declined ¥57,000 compared with the end of March 2018. In addition, the number of clients indicated here declined as the number of clients outside the scope of tabulation increased reflecting falling average sales per client.

In addition to the land for lease use newly acquired in Kashiwa, Chiba Prefecture, in February 2017, we entered into a pachinko parlor M&A agreement and a lease property intermediary agreement (¥26 million).

As a result net sales of the Real Estate business increased 41.7% year on year to ¥51 million and segment income rose 100.4% to ¥35 million.

*Translation difference on cash and cash equivalents: 1H FY2018=¥9 million; 1H FY2019=¥27 million

- Cash and cash equivalents increased ¥93 million to ¥4,042 million during the period.
The Group did not revise its previous full-year earnings forecasts, as its consolidated performance in the first half was roughly in line with the initial forecast.
Gendai-operated Website “Pachi 7”

It is a Pachinko/Pachislo portal site based on the concept of offering information beneficial to the user quickly, in an easily understandable and interesting manner, with the aim of energizing the industry.

Website established
August 7, 2014
(Pachi 7 Day)

*September 2018 Google search results (Source: Gendai Agency)
Has 6.7 million UU data, of those who visited Pachi 7 and 777 website, which is managed as action history big data. Along with distributing advertisements to the 6.7 million pachinko users, the same advertisements are sent simultaneously to those non-Pachi7 users with similar action pattern, thus making it an Internet advertising specializing on the pachinko industry with the ability to distribute widely to pachinko users.

The Group owns the data of fitness users who have visited @FitSearch and manages their behavioral history as big data. By distributing ads to fitness and sports club users as well as people who have not visited the website but who have the same behavioral patterns as fitness and sports club users, these ads can be widely distributed to fitness and sports club users and are fine-tuned to the needs of the fitness industry.

A DSP advertising service that can distribute to more than 200 interest categories such as students, housewives, beauty and real estate. The service distributes ads by combining a number of distribution methods such as limiting areas, distributing to users with matching interests, attributes including age groups and gender, and distributing to users who have visited the client’s own website, which enables clients to appeal to any demographic in their local area.

Distribution of user data

Over 2 million UU monthly!

Pachinko users
6.7 million UU

Fitness users
1.5 million UU

Number of segments
More than 200

Ads can be distributed to users in specific areas using GPS

Circular area designation with a specified radius
Polygonal area designation using connecting dots
Areas around specified stores, etc.

Accumulation of user data

One of the largest in Japan!!
Distributing to a monthly stock of 410 billion mobile advertising slots!!
PCs: 150 billion imp per month
Mobile phones: 260 billion imp per month

Yahoo! JAPAN
Marketing solutions Certified partner: “Silver” company
It is a design portal site that comprehensively handles the requirements of individual business owners and companies. It produces semi- and fully made-to-order designs and sells design templates over the Internet leveraging its main contents made up of 23,000 template materials, which are the largest among websites offering similar services, and designer blogs that convey design knowhow.

- Monthly PV count – 50,000PV
- User count – 20,000 users

We are expanding sales by conducting contract-based design for individual business owners and inter-company transactions based on API collaboration. We have increased the number of partner companies to 18 as we stably secure requests from individual business owners via the internet.
@FIT Search is a portal site that introduces sports clubs around Japan and where health-minded people gather.

It provides the details, fees and programs of sports clubs around Japan in an easy to understand manner.

We plan to add contents such as information on joy of exercising, healthy food and recipe.
